

Know the signs of pancreatic cancer

Jaundice
yellow skin or eyes

Nausea or
loss of appetite

Abdominal
or back pain

Diabetes
New or hard to manage

Fatty stools
pale, oily, hard to flush

Unexplained
weight loss

If you notice any of these symptoms and you don't know why, talk to your GP.

If you have jaundice, seek urgent medical advice.

These symptoms can be caused by common, less serious conditions.
